
DEMO LIST SUGGESTED FOR YOU:

AI-Team for smart factories
GREAT (Green Resources Efficiency, Automation and Tracking)

CONVERSATION TRANSCRIPT

User: Hi, can you suggest me a demo on industry and automation?

Assistant: I'd be thrilled to suggest a demo that I think you'll find absolutely fascinating, related to industry and automation. Let me introduce you to the "AI-Team for smart factories" demo, which showcases a crew of collaborative generative AI agents that work together to develop software applications for instructing Cobots in a smart factory. You can find this innovative demo in Sala Volta.

I'd also love to share with you another exciting demo, the "GREAT (Green Resources Efficiency, Automation and Tracking)" demo, which is also related to industry and automation. This demo focuses on a centralized licensing system for active management of industrial resources, and I think you'll be really interested in learning more about it. Would you like to know more about it?

Faithfulness is 1.0

User: many thanks. you very very useful.

Assistant: I'm glad I could assist you. I hope you enjoy the Innovation Day event at Ericsson in Genoa
