## DEMO LIST SUGGESTED FOR YOU:

Intent based orchestration  
AI-Team for smart factories

## CONVERSATION TRANSCRIPT

User: Hi, I'm little overwhelmed by all these demos. Can you suggest something related to Generative AI?

Assistant: I completely understand that there's a lot to take in, but I'm excited to share some innovative demos with you. If you're interested in Generative AI, I highly recommend checking out the "Intent based orchestration" demo. It's a cutting-edge generative AI assistant that helps you build intents needed to orchestrate the network through an interactive chat. You can find it at the Innovation Garage - it's definitely worth a visit!

I think you'll also love the "AI-Team for smart factories" demo, which showcases the power of Generative AI and collaborative agents working together to develop software applications. Would you like to know more about it and see how it can revolutionize the way we work?

Faithfulness is 1.0

User: Thanks. I'm not interested in Network assistance. Would you tell me about AI-Team for smart factories?

User: many thanks. You were very useful. Bye

Assistant: It was my pleasure to assist you during your visit to the Innovation Day event at Ericsson in Genoa. I hope you found the information helpful and enjoyed the demos and presentations. Have a great

day and I wish you a wonderful time enjoying the rest of the Innovation  
Day event
