

19 Ericsson R&D Italy Demos

3 Other Ericsson Garage Demos

1 MELA "Learning" info point

Area	Title	#
Sustainability	Resource optimization in Telco RAN	1
	Resource optimization in Enterprise	2
	Cooling propellers for noiseless operation	3
	Heat dissipation in additive manufacturing era	4
Connectivity	AI assistant for automatic Network configuration	5
	AI Machine Learning for automatic Network configuration	6
	AI assistant for automatic Network configuration (AI TeleGuard)	7
	AI assistant for automatic Enterprise configuration	8
	Resume Network coverage in critical mission and natural disaster	9
	AI robot for demo assistance	10
	AI Info Point	11
Network and Public Security	AI to avoid security rules infringements	12
	AI to protect network violation	13
	Let's hack it!	14
	Network application to alert presence of identified stalker	15
	Identity with AI the fraud Voice distortion	16
Advanced Technology	Quantum for network security	17
	Co-Packaged Optics (CPO)	18
	Self-cleaning connectors	19

Innovation Day 2024 Info Point AI assistant

Inspired by ChatOPM application for Customer Support for Regulatory Solution products

DEMO TOUR PROPOSAL FOR YOU:

7 AI assistant for automatic Network troubleshooting (AI teleguard)

8 AI assistant for automatic Enterprise configuration

10 AI robot for demo assistance

5 AI assistant for automatic Network configuration

6 AI Machine Learning for automatic Network configuration

9 Resume Network coverage in critical mission and natural disaster

11 AI Info Point

CONVERSATION TRANSCRIPT

User: can you tell me all demo regarding connectivity please

Assistant: Here are the demos related to Connectivity:

- AI Machine Learning for automatic Network configuration: This demo showcases the implementation of a packet-optical dynamic transport network for mobile networks, highlighting two specific use cases: energy consumption savings and RAN sharing by Mobile Network Operators.
- AI assistant for automatic Network troubleshooting (AI TeleGuard): This demo features a telecom knowledge base utilizing a Retrieval-Augmented Generation (RAG) database, which includes product documentation, supports known issues and solutions for an advanced AI agent system.
- AI assistant for automatic Enterprise configuration: This demo presents a crew of collaborative generative AI agents that work together to develop SW applications able to instruct Cobots upon requirements taken from a human operator.
- Resume Network coverage in critical mission and natural disaster: This demo demonstrates how to quickly rebuild network infrastructure using temporary free-space optical links after a disaster, ensuring rapid and flexible re-establishment of connectivity.
- AI robot for demo assistance: This demo features an innovative, self-balancing robot platform with a 360-degree camera and computer vision, designed for remote operation and real-time data collection.
- AI Info Point: This demo showcases an AI Assistant designed to facilitate engaging, human-friendly interactive discussions, leveraging agent-based technology within the generative AI domain and incorporating sentiment analysis feedback.

These demos are really exciting and showcase the latest innovations in Connectivity. You might be interested in learning more about the demos in the Sustainability category, which could be just as fascinating.

Faithfulness is 1.0 [0.0 - 1.0]

User: many thanks

Assistant: I'm glad I could help. Enjoy the Innovation Day event
