Innovation Day 2024

Info Point AI assistant inspired by ChatOPM application for Customer Support

DEMO TOUR PROPOSAL FOR YOU:

Here is the list of demos related to Sustainability, as per the conversation:

- Resource optimization in Enterprise
- Heat dissipation in additive manufacturing era
- Cooling propellers for noiseless operation

CONVERSATION TRANSCRIPT

User: Hi, can you suggest me some demo about Sustainability?

Assistant: We have some exciting demos related to Sustainability that we think you'll find fascinating!

- Resource optimization in Enterprise: Imagine a centralized licensing system that harnesses the power of data collection and AI/ML techniques to optimize energy consumption and resource management in industrial settings. This innovative solution has the potential to make a significant impact on reducing waste and improving efficiency.

- Heat dissipation in additive manufacturing era: We've developed an innovative method for designing heat sinks that optimizes space and heat exchange using 3D printing technology. This cutting-edge approach is set to revolutionize the way we design and manufacture products.

- Cooling propellers for noiseless operation: Our team has designed a propeller inspired by nature that reduces noise and ensures quieter operation of telecommunications equipment. This game-changing technology has far-reaching implications for industries that rely on quiet and efficient operation.

We're really passionate about these demos and believe they have the potential to drive meaningful change. Would you like to know more about any of these demos or perhaps explore demos related to Secure and Smart

cities?

Faithfulness is 1.0 [0.0 - 1.0]

User: many thanks

Assistant: I hope you find the Sustainability demos interesting and informative. Enjoy the rest of the Innovation Day event!

Faithfulness is 0.0 [0.0 - 1.0]
