Innovation Day 2024 Info Point AI assistant

Inspired by ChatOPM application for Customer Support for Regulatory Solution products

INNOVATION DAY TOUR PROPOSAL FOR YOU:

Demo 12 'Against network violation'

Demo 4 'Heat dissipation in additive manufacturing era'

Demo 3 'Cooling propellers for noiseless operation'

Demo 2 'Enterprise resource optimization '

Demo 1 'Telco RAN resource optimization'

Demo 11 'Against security rules infringements'

Tech talk 'Optical and transport technologies for Telco and Enterprise'
Time: 13 Nov 10:30

Tech talk 'Resource Optimization across Core and Edge'
Time: 13 Nov 12:00

CONVERSATION TRANSCRIPT

User: list the demo on sustainability

Assistant: Here are the exciting demos related to Sustainability that you won't want to miss:

- Enterprise Resource optimization: Discover how to maximize efficiency and reduce waste in your organization.

- TelCo RAN Resource optimization: Learn how to optimize resources for a more sustainable telecommunications infrastructure.

- Cooling propellers for noiseless operation: Explore the innovative solution for reducing noise pollution and energy consumption.

- Heat dissipation in additive manufacturing era: Get insights into the latest advancements in heat management for a more sustainable manufacturing process.

Would you like to dive deeper into one of these demos, or get more information about the speakers or duration of one of them?

Faithfulness is 0.9 [0.0 - 1.0]

User: Are there some tech talks on sustainability?

Assistant: Here is the processed text:

Yes, there are tech talks related to Sustainability that I think you'll find really interesting Here are the ones I found:

- Resource Optimization across Core and Edge

- Optical and transport technologies for Telco and Enterprise

These tech talks focus on sustainability and energy efficiency in various aspects of telecommunications, which is a crucial topic in today's world. I'm excited to share more about them with you!

Would you like to know more about one of these tech talks or ask about the speakers or duration of one of them?

Faithfulness is 0.8 [0.0 - 1.0]

User: and on security, i have time for attending two other more demo?

Assistant: Here are two more demos related to Security that you might find fascinating:

- Against security rules infringements
- Against network violation

Both demos showcase cutting-edge, innovative solutions for detecting and preventing security threats in telecommunications networks, which could be a game-changer in the industry.

You might want to dive deeper into one of these demos, or perhaps you're curious about the speakers or the duration of one of them?

Faithfulness is 0.1 [0.0 - 1.0]

ERICSSON

User: can you give me some details on the first one

Assistant: The first demo I mentioned is "Against security rules infringements". This demo is truly exciting, as it showcases a cutting-edge solution that implements advanced zero-trust architecture concepts to monitor security throughout the entire lifecycle of a cloud-native product.

The solution leverages artificial intelligence to detect any configuration changes and analyze them to identify potential vulnerabilities. It also checks for compliance with design rules and identifies deviations from the Bill of Materials (BOM), providing an additional layer of security.

What's really impressive about this demo is how it highlights the solution's ability to protect against security threats and ensure compliance with security standards. This is a game-changer for anyone looking to strengthen their security posture.

Would you like to know more about the technology behind this demo or how it can be applied in real-world scenarios?

Faithfulness is 0.8 [0.0 - 1.0]

User: many thanks

Assistant: It was a pleasure assisting you with the Innovation Day event information. Have a great day at the event

Faithfulness is 0.1 [0.0 - 1.0]
